Declaration of originality

I hereby confirm that no portion of the work referred to in the thesis has been submitted in support of an application for another degree or qualification of this or any other university or other institute of learning.

Copyright statement

- i The author of this thesis (including any appendices and/or schedules to this thesis) owns certain copyright or related rights in it (the “Copyright”) and s/he has given The University of Manchester certain rights to use such Copyright, including for administrative purposes.
- ii Copies of this thesis, either in full or in extracts and whether in hard or electronic copy, may be made *only* in accordance with the Copyright, Designs and Patents Act 1988 (as amended) and regulations issued under it or, where appropriate, in accordance with licensing agreements which the University has from time to time. This page must form part of any such copies made.
- iii The ownership of certain Copyright, patents, designs, trademarks and other intellectual property (the “Intellectual Property”) and any reproductions of copyright works in the thesis, for example graphs and tables (“Reproductions”), which may be described in this thesis, may not be owned by the author and may be owned by third parties. Such Intellectual Property and Reproductions cannot and must not be made available for use without the prior written permission of the owner(s) of the relevant Intellectual Property and/or Reproductions.
- iv Further information on the conditions under which disclosure, publication and commercialisation of this thesis, the Copyright and any Intellectual Property and/or Reproductions described in it may take place is available in the University IP Policy (see <http://documents.manchester.ac.uk/DocuInfo.aspx?DocID=24420>), in any relevant Thesis restriction declarations deposited in the University Library, The University Library’s regulations (see <http://www.library.manchester.ac.uk/about/regulations/>) and in The University’s policy on Presentation of Theses.

Chapter 1

Example Chapter

1.1 How to write thesis chapters

Quarto uses markdown syntax. I use Rstudio as my IDE. **knitr** is the engine that interprets code chunks when using Rstudio, and it supports a variety of languages, including R, Python, SQL, JavaScript, and Ruby. For a full list of supported languages, type the following command:

```
names(knitr::knit_engines$get())
```

Citations are done like this [1], and point to references.bib in the parent directory.

1.2 Using code chunks

Code chunks can be inserted using a button in the top right corner of this window, or by using `Alt+shift+I`. Have a look at `example_chapter.qmd` in `quarto_chapters` for a demo of this. Figure 1.1 is produced using an `r` code chunk.

1.3 Using other languages

To use other languages, simply label the chunk accordingly. For example:

You can mix and match different languages throughout your report.

1.4 Models

Knitr includes the ability to cache models. This is very useful if your models are especially complex or you have a very large report. This is demonstrated below.

Setting `eval_models` to `TRUE` in line 9 means models are evaluated and cached with every knit. Setting to `false` means that knitr looks for the model in the cache, so you only have to set it once! The chunk below accomplishes this:

Figure 1.1. An example of a figure

1.5 Using this template

- chapters should be written using quarto markdown and are located in the `chapters_quarto` folder.
- `main.tex` in the top-level directory should be used to specify authors, declarations, abstracts etc.
- once chapters are all written, reformat the tex using the function provided in the `reformat_tex.r` file, then compile `main.tex`.

Itemise is demonstrated above.

1.6 Labelling

Chapters are referenced as such:

```
\chap{chap:example_chapter}
```

As in, in Chapter 1...

Sections are labelled similarly, but you need to type the word “Section” in addition.

```
\ref{labelling}
```

As in, in Section 1.6...

You will probably end up with multiple sections called “Introduction”, “Methods”, “Results” etc. If this is the case, you can manually specify the label for a section like so:

Introduction_test

Introduction_test {introduction_test2}

In Section \ref{introduction_test} as opposed to Section \ref{introduction_test2}

1.7 Introduction_test

1.8 Introduction_test

In Section 1.7 as opposed to Section 1.8
